Viljami Kuosmanen

Chief Product Engineer @ epilot.cloud
Cologne Bonn Region

Summary

Father, Software Engineer, OSS Maintainer, Head of Engineering

Proven track record of 15+ years shipping software products and leading high performance teams. Forbes-featured security researcher. Author of popular open source libraries in the API tooling space.

Passionate about building products as a hands-on product engineer leader, going beyond traditional tech roles to build exceptional products with great people. Read my manifesto at productengineer.org
